To inform secondary principals, assistant principals, and teachers of the availability of Edgenuity's new 7th grade Civics and 11th grade U.S. History Benchmark Review modules.

- The Department Social Sciences is informing all secondary principals, assistant principals and teachers of the availability of Edgenuity's new 7th grade Civics and 11th grade U.S. History Benchmark Review modules.
 - Edgenuity's learning management system provides powerful data and tools to inform instruction one-on-one or in small groups. With a real-time understanding of student progress, teachers can work directly with students to reteach or review concepts and answer questions on assignments and assessments.
 - Using Edgenuity reports, teachers can monitor the performance and progress of individual students or multiple students at once. Through a variety of reports, teachers can track students' overall grades, percentage of work completed, assignments completed, and other essential information. The Attendance Log allows teachers to see how long students have logged into the program in addition to specifically which benchmark they have worked on.
 - The Dashboard offers a user-friendly method of managing groups of students from one centralized location. Using the Dashboard, educators can measure and monitor student achievement, all in real time. Educators can use this data to differentiate instruction, address misconceptions, and answer questions one-on-one or in small groups.
 - This instructional resource is ideal to assist 7th grade Civics teachers during the 4 week benchmark review period built into the 7th grade Civics pacing guide prior to the administration of the 7th grade Civics End of Course assessment.
 - The instructional resource is also ideal to assist 11th grade U.S. History teachers during the 3 week benchmark review period built into the 11th grade U.S. History pacing guide prior to the administration of the 11th grade U.S. History End of Course assessment.
