Free in-school United States History through Music program targets 5th grade Florida Standards in Social Studies, English Language Arts, and Music.

- United States History through Music is an interdisciplinary program for 5th grade students that targets Florida Standards in Social Studies, English Language Arts, and Music. It motivates and challenges students to better understand United States history by connecting primary source songs, lyrics, musical styles, and instruments to Essential Content from the District's 5th grade United States History Pacing Guide.
 - Instructional resources are provided to Social Studies, Language Arts, and Music teachers to use at their discretion.
 - The musical content is delivered directly to students by a teaching artist over the course of four 50-minute classroom sessions, one in each nine-week period, during music, social studies, or other instructional time.
 - See attachment for additional details.
 - To be considered for the program, complete the following application form:
