To provide schools with instructional resources to support the celebration of Women's History Month, March 2016 produced by the Department of Social Sciences.

- The purpose of Women's History Month is to call attention to the achievements of women, both past and present, in all facets of life including government, public service, science, business, literature, the arts, medicine, and athletics. The 2016 Women's History Month theme is "Working to Form a More Perfect Union: Honoring Women in Public Service and Government."
- With an emphasis on positive role models and women from all backgrounds, the celebration of Women's History Month provides schools with opportunities to highlight women who have made a positive difference in our community, nation, and world. Additionally, Florida State Statute 1003.42 requires the study of the contributions of women to the United States.
- To assist teachers, staff in the Department of Social Sciences has developed elementary and secondary instructional resource guides to support Women's History Month. The guides include background information, detailed lesson plans, Internet resources, and other activities to support the character education core value for March (i.e., cooperation).
- Below please find the links to the elementary and secondary instructional resources compiled to support Women's History Month. Please feel free to download and duplicate these, as needed.
